

SCAA Spring Workshop
Tuesday, May 18th, 2010

***South Carolina Archives: The Next Decade,
A Plan For Renewal***

9:30 - 10:00 **Registration and Refreshments**

10:00 - 11:00 **Where Have We Been? ~ *Roy Tryon***

Founding member, Roy Tryon, will present a history of the South Carolina Archival Association and highlight our accomplishments over the past decade.

11:15 - 12:30 **SCAA Web Survey Report ~ *Susan Hoffius***

In November/December 2009, we conducted a survey to document the needs of archivists around the state in reference to continuing education, professional development and professional development services support. Susan Hoffius will present a summary of people's opinions and their perceptions about what benefits and services our organizations provide and/or should provide in support of the archival profession.

12:30 - 1:00 **Lunch & Social Hour**

1:30 - 3:00 **Affinity and Beyond ~ *Suzie Rast***

SCAA has made great strides in the last ten years, yet strong challenges exist and must be faced. Suzie Rast, from the Office of State Budget, will be on hand to help direct us to an action plan for our future. Some questions to be addressed are: What are all the issues involved in promoting involvement/membership in our organization? What are all the issues involved in determining types of professional development our organization offers? What are all the issues involved in communication of professional development/continuing education our organization offers? What are all the issues in the quality of the programs we offer?

3:00 - 3:30 **Action Plan for Renewal ~ *Dawn Hammatt & Suzie Rast***

If our organization is to grow, be relevant, and attract new members we must redefine our focus and identity. SCAA Chair, Dawn Hammatt, and Suzie Rast will lead the group in discussing possible action items we will consider as a result of the survey and affinity exercise. What are the most common issues? How do we improve our organization to benefit all our members?

*SCAA would like to thank all of our presenters and a special thanks to our volunteers, Brooke Fox and Brian Fahey.
